VOLUME 44

Buckholts Highway Well Under Way; Plan Rebuilding of Cameron And Ad Hall Pike Road Soon

The work on the Buckholts Highway from Ad Hall to the Bell county line at a point this side of Rogers is progressing nicely. This work is being done by the A. C. Buchanan Construction Company of Temple under the supervision of the Federal, State and County Engineers. With favorable weather this road will be completed within the next sixty days.

Mayor U. S. Hearrell has recently made a trip over this stretch of road and at the Commercial Club meeting on last Friday night advocated the rebuilding and resurfacing of the road from Cameron to Ad Hall, which is approximately seven miles. The Club took favorable action on Mayor Hearrell's suggestion and the matter of providing funds to do this work was referred to the road committee. It is expected that the Federal and State Governments will view with favor the rebuilding of this road and in the event this seven miles of road is financed from Cameron to Ad Hall there will be no better gravel road in the State and it will also mean a uniform road from Cameron to the Bell county line connecting with the Rogers road.

The McClung Construction Company of Cleburne who has the contract to build the Ben Arnold Highway and the road east of Ben Arnold

thence north to connect with the Clarkson road district at Pond Creek, have a large fleet of Ford trucks hauling gravel on the highway. One mile of the highway has been constructed and with favorable weather this entire road should be constructed within sixty days.

Messrs. T. F. Nichols, Federal Engineer of this district with headquarters at Fort Worth and State Engineer M. C. Welborn of Waco, are in the county this week, making an inspection of the various projects under construction and also to make the final inspection of the survey on the Milano Highway, which will be built from McCown's bridge through Milano to the Burleson county line.

County Engineer A. F. Mitchell has been giving practically his entire time lately to completing the plans and specification on the Milano road and anticipates that the Federal and State Engineers will approve the survey as made.

With the completing of the Buckholts Highway, Ben Arnold-Burlington Highway and the Milano Highway, Milam County can boast of one of the very best road systems of any county in the State.

TEXTILE INDUSTRY DISCUSSED BEFORE COMMERCIAL CLUB

A. & M. EXPERTS OPTIMISTIC OVER POSSIBILITIES FOR INDUSTRY IN TEXAS

The Textile Industry and its relation to the South and to Texas was discussed in an illuminating address before the Commercial Club Friday night by J. B. Bagley, head of the Textile Engineering Department of the A. & M. College.

This address was delivered in response to an invitation from the club following the efforts here to bring

(Continued on page 6.)

48,000 BALES IS MARKET QUOTA SET IN MILAM COUNTY

MORE THAN 100 COTTON COUNTIES IN CAMPAIGN FOR 1,000,000 BALE POOL

A quota of 48,000 bales of cotton has been set for Milam county in the Texas Farm Bureau Cotton Growers' Cooperative Marketing Association's drive for a million bales of cotton by July 1, according to word received here from the state Farm Bureau headquarters.

More than 100 leading cotton counties are actively at work in the campaign. The general plan is an organization of the cotton growers, backed by the local bankers and merchants, who in many communities have unanimously indorsed the plan and on designated days close up their businesses to aid in the drive. Signatures to the cotton contracts are being obtained at community meetings and in farmer-to-farmer canvasses by teams of growers and interested business men.

In some counties, a leader has been employed to direct the work but the actual sign-up work is being done by the growers and their friends. Thirty counties have employed as many of the best organization leaders developed in the drive which the Oklahoma cotton farmers recently successfully completed.

In all there are ten Southern states organizing cotton associations under the same plan as Texas. Oklahoma, which set out for 8,000,000 bales under a seven year contract, signed up more than 400,000 bales and the long staple growers of Mississippi, who set out for 200,000 bales have already passed their quota.

MRS. S. H. EDWARDS DEAD AT 79 YEARS

PIONEER WOMAN DIES IN YARRELLTON HOME TUESDAY AFTER SHORT ILLNESS

Mrs. H. Edwards aged 79 years, pioneer resident of Milam County, died at her home in Yarrellton Tuesday morning at 9:45 o'clock after a short illness.

Mrs. Edwards was born in Kentucky, November 26, 1842. She was married to William H. Wilkerson in 1860. They were among the pioneer settlers in this county. She had resided for 49 years in Yarrellton.

Funeral was held from the residence Wednesday with C. N. Green and Brothers directors. Rev. S. B. Culpepper conducted the services. Deceased was a member of the Baptist church.

She is survived by eight children as follows: Jim Wilkerson, Temple; Anne Wilkerson, Cameron; Dave and Isaac Wilkerson of Yarrellton; Mrs. Maude Davis of Plainview; Darcus Wilkerson, Yarrellton; Mrs. Geneva Lankford, Mrs. Massey Harris, Ballinger.

Interment was made in North Elm Cemetery at 3:30 o'clock Wednesday afternoon.

BIG INCREASE IN SCHOOL CENSUS OF MILAM COUNTY

CITY OF CAMERON HAS 1228 SCHOLARS SHOWING BIG INCREASE OVER LAST YEAR

There is 11,172 scholastics in Milam county according to a census just completed by Jim F. Chadwick, County Superintendent.

In the common school districts of county there is 7869 pupils. In the independent districts there is 3303 scholastics. The census this year shows a large increase over the previous year.

In the Cameron district there is 1228 pupils. The second largest school is Rockdale with a total of 547. Thorndale is third with 404.

Following is a complete list of the schools.
Common School Districts—7869.
Cameron—1228.
Rockdale—547.
Thorndale—404.
Gause—293.
Milano—286.
Burlington—243.
Sharp—184.
Fairview—125.
Gained over County.

STORY OF BURBANK TOLD; HERO SAYS ADRIAN IN SPEECH

NOT KILLERS LIKE NAPOLEON BUT THOSE WHO RENDER GREAT SERVICE TO MANKIND

At the Chautauqua Tuesday night Dr. Henry A. Adrian, who was associated with Luther Burbank, the plant wizard, for years, delivered one of the most enlightening addresses ever heard in Cameron. Every school child of Milam county should have heard that talk, it would have proven an inspiration to everyone of them. He was listened to with rapt attention and was freely applauded.

Dr. Adrian began his address by stating the awful conditions of famine which are ravishing the East at the present time. He said that this very year more than three million people would die of starvation, in spite of all the rescue work that could be done. "If this condition is to be remedied, we must put under the plow millions of acres that still lie unused in the United States and every home must have its garden. The yield of the fields must be enormously increased by the training of our common food plants, to a far greater productivity and by creating new food plants."

He mentioned the following great achievements already accomplished along this line:

The new ensilage corn that yields 80 tons to the acre. The Kamas, a wild turnip that has been developed into an almost perfect substitute for the Irish potato, free of all pests, and will grow anywhere and on practically any soil, however poor.

The new Burbank wheat that yields 60 to 65 bushels to the acre, instead of the usual 15 or 20 bushels. The spineless cactus, which is destined to cause the "deserts to blossom as the rose," as foretold in holy writ.

The thornless blackberry and pitless plum, prefacing the day when all our edible fruits shall be seedless. The new chestnuts that begin to yield fine large nuts within ten months from planting and the Paradox walnut which grows into the lumber tree of two feet in diameter, in 16 years, instead of 50 years as at present.

Dr. Adrian depreciated the fact that the heroes told of in our school books of today are warriors like Napoleon, killers of men, instead of the benefactors of the race.

He described many of the achievements of Luther Burbank and stated that the real heroes whose pictures should adorn the walls of our schools were those who had made great sacrifices.

(Continued on page 6.)

Cedar Chests To Be Made From Timbers of Old Fort Nashville On The Brazos River

The timbers of Old Fort Nashville established in 1833 in the colony of Robertson on the Brazos after nearly a century in use, serving as a habitation for pioneers who set the star of empire in the west are to be moved from their historic location and reduced to a very novel domestic use in the form of cedar chests.

R. H. Redfield and Sons of Cameron wood mill workers, have purchased the timber of Old Fort Nashville and will bring them to their mills in Cameron and manufacture cedar chests. Mr. Redfield makes an announcement this week regarding the purchase of this timber and the manufacture of the cedar chests.

The fort at Nashville grew out of the establishment of the Robertson Colony and for this bit of historic information we are indebted to Mrs. Jeff T. Kemp of Cameron whose collection of history is remarkable in its detail and interest. In writing of the old fort Mrs. Kemp says:

"The land on which the fort was situated was granted by the state of Coahuila and Texas to Thomas Jefferson Chambers, April 26, 1832, and was a part of an eleven league grant to that distinguished citizen. This land was surveyed by order of the Alcalde, Horacion Chiesman in the year 1832 and is described as situated on the west margin of the Brazos, about 5000 yds. below the river San Andres, which is now called Little River. The adjoining grant of land was known as the Waco Village tract so we may presume these Indians were one of the tribes that dwelt here at that time."

Largest Class in History Graduated From Yoe High School In Cameron

THANKS THE SENIORS
I sincerely thank the Senior Class of the Yoe High School graduates for remembering me with those lovely flowers. I appreciate them very much. May God's blessings rest on each of them. I love them with all my heart.
CARRIE YOE

CHILDRENS PARADE FRIDAY ENTERTAIN AT CHAUTAUQUA

HOME TALENT PROGRAM AT BIG TENT TENT TEN O'CLOCK A. M.

Watch for the Children's Parade! Friday morning at 9 o'clock every child in town is asked to meet at the Chautauqua tent, costumed if they like. Led by the Cameron band the procession, will march around town, winding up at the tent for the big program at 10 o'clock.

Folks, this program is being presented by the boys and girls of Cameron for your entertainment and benefit. Perhaps you never knew before just how large a crop of young violinists your town can produce. There will be selection from the band, glee club and orchestra pieces, besides many others. Of course, the boys and girls want to see Mikey and Sam do their tsunt. You will enjoy every number—especially the play to be presented.

Do you remember how big and wonderful Dad used to look to you? Well he is that same size to Junior now—because he knows Dad's behind him in whatever he does. Friday he is depending on you to come and help him out.

One-half the proceeds of the program will be used by the children to present a suitable gift to the town. Of course they are hoping oh so hard to be able to give something really big and worth while. Get behind your junior town! Show the youngsters you are really with them. Come and see your boy and girl perform.

Admission tickets now on sale—15c and 25c.

THOUSANDS ATTEND CHAUTAUQUA AND APPLAUD ARTISTS

PREMIER PROGRAM OF AMERICA BRINGS BEST ENTERTAINMENT TO CAMERON

The 1921 Chautauqua opened in Cameron Sunday, the weather being ideal and the attendance larger than usual on the first day. Crowds gathered at the City Park where the big tent is pitched, some time before the opening hour and everything bespoke a successful season.

Vierra's Original Hawaiian enjoyed the distinction of opening the season and did it in a manner that won popular esteem and appreciation. Much favorable had been said and written in behalf of this combination prior to its advent and it was the general verdict that the performance more than justified all the good things uttered. Critics pronounced the company as the first real Hawaiian company with real Hawaiian music it had ever been their pleasure to listen to. Albert S. Vierra played up to the reputation that preceded him as being a great ballad singer, while the charming Mrs. Vierra was heard to great advantage. A wizard in his craft, James Fern practically made his guitar talk. Other members were fully up to the standard and the performance left a fine impression.

At night Chas. H. Plattenburg entertained and delighted a large crowd with his great lecture on "Christian Citizenship." Plattenburg is said to be neither an evangelist or a radical, preserving a happy medium that made his points go over well with his audience. He stressed the point that civic duty is no less important than filial duty, urging that people get the habit of thinking in community terms. Petty things and peanut objectives were frowned upon in the lecture and there was nothing tentative or hesitant in the suggestions made to the citizens and they were straightened out in their community thinking as a result.

Tuesday afternoon the Musical Grenadiers delighted a large audience and at night Dr. Henry A. Adrian delivered his notable lecture on True Nobility, an extended notice of which will be found in another column of this issue.

Broadway Jones, the popular play, met in every way the expectations of the people of Cameron. This play was given Wednesday evening.

CAMERON WILL SUPPORT BALL TEAM THIS SEASON

Leasing of a park on the Crawford tract of land near the county jail and the organization of a baseball club will insure for Cameron a good season of the national pastime.

A number of fans have been engaged during the past few days securing a sight for the park. It is planned to have a good club to play the remainder of the season.

DRIVE-IN FILLING STATION UNDER WAY

J. M. OWINGS OF AUSTIN HAS BUILDING UNDER CONSTRUCTION NEAR MARBLE WORKS

A drive in filling station is under construction on the F. A. Green lot near the Stolz Marble Works in Cameron. J. M. Owings of Austin, brother of T. R. Dewey, federal cotton classifier in Cameron is building the station. The building will cost approximately \$6000 and will be constructed of wood with brick columns supporting the drive-way. It is to be a modern station. Construction work was begun Monday and it planned to have the station in operation within a very short time.

Mr. Owings has moved to Cameron and will make his home here in the future.

With the largest graduating class in history the 1921 term of the Yoe High School was closed Tuesday night May 31 when the graduating exercises were held.

The graduating class is the largest in the history of Cameron high school and is the only one in the history to have graduated with a majority of the membership boys. There is 21 boys and 20 girls in the graduating class.

It has been a most successful year for the schools here. The Commencement exercises and the attendant socials have given a week of pleasure and associations.

The following program was rendered at the graduating exercises Tuesday night.

Invocation—Rev. R. H. MacFadyen.

Class Song—Graduates.

Salutatory—Josephine Smith.

Valedictory—Frank Joyce Cox.

Address to the Graduates—Dr. J. C. Hardy, President Baylor College.

Presentation of Diplomas—A. N. Green.

Benediction—Rev. S. B. Culpepper.

The above program was most delightfully carried out Tuesday night to the satisfaction and delight of all.

The High School stage was beautifully decorated in white daisies and ferns.

The school board, Revs. MacFadyen, Rev. Culpepper and the orator of the occasion were seated, after which forty-one graduates in all, twenty-one boys and twenty girls marched in in cap and gown and took their places in seats ribboned off in the class colors, pink and green.

Two fine addresses by the honor pupils, Frank Joyce Cox and Josephine Smith, on Citizenship were well done, and we hope to publish them in full next week.

Dr. J. C. Hardy, President of Baylor College, then made an interesting and instructive address on the aims and ideals of true democracy. He impressed the class that this was an age of democracy, and age of education, an age of woman, the new age.

Many good suggestions were thrown out for their instructions and encouragement at this interesting period in their lives.

Immediately after the graduating exercises the entire class, faculty and a few others were invited to the home of Mr. and Mrs. C. N. Green when Charlie Frank Green a member of the class gave a reception.

Mrs. Green met them at the door with a cordial greeting. As they descended the lovely decorated stairway they marched in couples, twenty strong, around the receiving line in which stood Mr. C. N. Green, Miss Ada Henderson, Mr. Kidd, Dr. Hardy, Stanton Dossett, and Rob Henry of Waco and the High school faculty.

Delicious punch was served throughout the evening by Mrs. Cheeves. Miss Motie Cass presided over the beautiful hand painted guest book. This was the artistic work of Mrs. McIntosh.

Little booklets with hand painted baskets on them were given to each guest with the evening's program in it and in these they also registered, and wrote wishes. Stewart Epperson wrote the best and was given a beautiful bunch of roses.

The dining room was a bower of beauty in the class colors, pink and green. Streamers came from the chandelier to the corners of the table. The lace cover was over pink with a cut glass bowl of pink roses.

Mrs. W. H. Henley, Misses Clark, Mary Frances and Helen Green served delicious brick cream and cake.

While they were eating Stewart Epperson acted as toastmaster and toasted the faculty.

Miss Bass gave a splendid toast to the Class and Joyce Cox to the Seniors of 1922.

Miss Clark gave a pianologue and Louise Denson a reading.

The singing of the Class song and a lingering farewell at about two o'clock closed the happiest days of many a boy and girl of the Class of 1921.

Dr. Ola D. Sheffield and Miss Oma Booth of Rosebud were dinner guests of Mr. and Mrs. R. H. Johnson Sunday and enjoyed the two sessions of Chautauqua held that day.

GEN. LEONARD WOOD MAKES APPEAL FOR NEAR EAST RELIEF

Says Two and a Half Million
Starving Armenians Need
Help at Once.

Ft. Sheridan, Ill.—Major General Leonard Wood, commanding the Sixth Corps Area, has issued a Lenten sacrifice appeal for funds to save the Armenians from annihilation by starvation and disease. "I feel that however many and however worthy the other appeals which are being made to the great heart of America these days may be," he says, "this cry from the little children cannot remain unanswered."

The Near East Relief, 1 Madison avenue, New York City, which has been charged by Congress with the American relief work in the whole Near East, has formed a special "Lenten Sacrifice Appeal Committee," of which Major General Wood is chairman, Charles V. Vickery secretary and Cleveland H. Dodge treasurer, to put before the American people the desperate need of the Christian populations of the Near East, who have suf-

MAJ. GEN. LEONARD WOOD

fered and are still suffering the horrors of war.

Among the prominent members of General Wood's Committee are Secretary of the Treasury Andrew W. Mellon, Mrs. Corinne Roosevelt Robinson, sister of the late President Roosevelt; ex-President W. H. Taft, Mary Garden, President John Grier Hibben of Princeton University, Bishop-Elect William T. Manning of New York, Dr. Henry van Dyke, David Belasco, Samuel Gompers, Frank A. Munsey, Mrs. Carrie Chapman Catt, Mrs. Henry Morgenthau, John G. Milburn of the American Bar Association, Miss Elizabeth Marbury and Mrs. Medill McCormick of Chicago.

General Wood's Appeal

As Chairman of a Special Committee of representative men and women of the country, charged with placing before the American people the desperate need of two and a half million Armenians, the remnant of the oldest Christian nation, whose sufferings through sixteen centuries seem to have brought them no nearer peace, liberty or security, I beg your personal co-operation and influence to forward an appeal for a Lenten Sacrifice Offering to enable the Near East Relief to go on with its work of mercy.

Over one hundred thousand little children who have been kept alive by American generosity for the past three years are absolutely dependent upon the support which America gives them through the Near East Relief.

I feel that however many and however worthy the other appeals which are being made to the great heart of America these days may be, this cry from the little children of the land where Christ gave his life for mankind cannot remain unanswered.

Will you help to save this martyred people?

Leonard Wood
Leonard Wood,
Major General,
U.S. Army.

PRESIDENT ENDORSES THE NEAR EAST RELIEF APPEAL

Washington.—President Harding has given his hearty endorsement to the appeal being made by Maj. Gen. Leonard Wood on behalf of the Near East Relief, 1 Madison Avenue, New York City, for a nation-wide Lenten Sacrifice Offering to save the starving Christians of the Near East.

The President's letter reads: "There ought to be no cessation or relaxation of our sympathetic American efforts to be of service to these stricken people. One can well believe that they will not survive if we withdraw the relief which has heretofore been so generous from the private American purse. It has seemed to me that all we have done has borne dividends tenfold in the consciousness that we have done an humane thing for a people well deserving our generous sympathy."

"I wish you the very greatest success in furthering the great relief movement to which you are now giving your attention."

"WARREN G. HARDING."

++++++
SAN GABRIEL GOSSIP
By Mrs. J. S. Woody
++++++

May 31st.—As spring warms into summer we are beginning to realize this a stubborn fact, since a day now works up the hours of light into a vast majority, out of the 24, stealing from the period of rest but offering more time to the yeoman in which to sow and cultivate in assurance of the harvest. Together with the long days comes the exceedingly warm ones. This is auxiliary to the agriculturist but with the duration of this condition for sometime now, we are not only desirous but exceedingly anxious for a good one.

Corn will suffer from much more dry weather and hay crops will be cut short in this community.

Also travel can be made more pleasant with our highway dustbeds sprinkled.

The village is undergoing repairs at present preparatory for fall operation. Vacation is emphasized in its fullest meaning as one by one our boys and girls come back home after their season's work in other fields.

Miss Lois Camp is now at home since finishing her year's work as student at Whittier College in Austin.

Miss Fay Felton is now home for her holidays with the close of Thrall school, where she completed the faculty as music director.

Miss Ula Gilchrist returned Wednesday from Sherman, where she attended school at Kidd-Key.

Miss Ora Yeager, teacher in the Thrall school the past term, is now enjoying a rest with homefolks for the summer.

Mr. and Mrs. Rasco of San Marcos, are guests of their parents here, Mr. and Mrs. Will Maddox at present.

Jack Cummings and wife of Granger spent Saturday afternoon with his parents, Mr. and Mrs. Mac Cummings of this village.

Mr. and Mrs. A. Y. Norman and mother, with Mrs. Zora Outlaw, attended the funeral of Tom McCree in Lilac Wednesday.

Branch Lewis was here from Rockdale Thursday.

A group of detectives stopped in our berg Friday en route to Austin after a successful search for bootleggers and stills. They reported having recovered a number of these.

Mises Virgie Winford and Ursula Outlaw were shopping in Taylor Monday.

Miss Suella Glascock left Friday for a visit to friends in Waco.

Messrs. Arthur and Guy Glascock were attending business in Taylor Friday.

Messrs. Will Lee, Tom Felton, Jr., Tamp Johnson, Hope Camp and son and A. M. Camp attended a ball game in Caldwell Thursday.

Decoration Day was observed by our rural postmen and no free delivery given for the day.

Elbert Guthrie and family of Dal-

las motored down Sunday for a brief stay with relatives.

Mrs. Matt Guthrie has returned home with them to spend a short while.

Miss Lillian Barclay is recreating in a visit in Colorado this summer.

Health of our community is fine up to date.

Miss Carter and Miss Burns were here from Cameron Monday.

1921 CACTUS DEDICATED TO MAJOR LITTLEFIELD

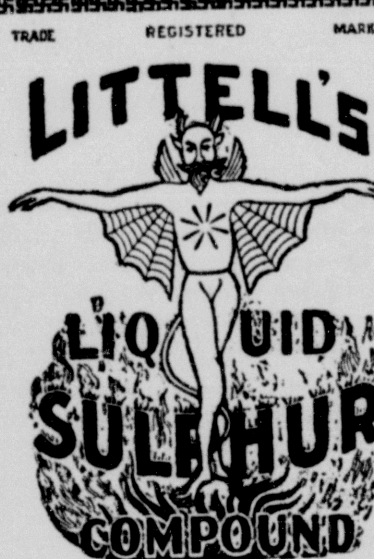

Austin, Texas, May 25.—The Cactus, the annual University of Texas publication, has been received and is regarded as one of the most artistic and complete ever issued by the students of the institution. It is dedicated to the University's late benefactor, Maj. George W. Littlefield, who died last December. It is replete with pictures, stories and incidents of the college and campus. Wendell Mayes of Austin was editor in chief and has been congratulated on the book.

The six student beauties are Misses Helen Cummings, Hearne, Eleanor Covert, Austin Marjorie Blakeney, Cleburne; Margaret Kelley, Dallas; Marguerite Kerr, Fort Worth and Mildred Chambers, Cameron.

Tinting and coloring has been used more extensively than heretofore and its successful introduction is one of the features of the book. Sectional pages show colored borders, surrounded by the six flags which flew over Texas, banked behind a great sweep of horns and a head of a long-horn steer.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOSS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 40c per bottle.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size \$1.00

MILANO OFFICERS CAPTURE CITIZEN WITH MOONSHINE

An aged man who lives a few miles south of Milano was caught delivering moonshine whisky in town last Saturday afternoon. Judge W. E. Peel, Constable Fount White and Officer Will Hensley were on the watch when he laid the quart of whisky down. After examining the whisky the man was arrested and taken to Cameron by automobile. Local officers have for several months been on the watch for the man, as he had been under suspicion for a long time. No purchaser of the whisky was rounded up, as no one but the officers saw the bottle being put down. Making moonshine and selling it are two dangerous vocations in this day and time, and the man who engages in such an occupation is certainly taking big chances in violating the laws. At the examining trial held Monday the man was placed under \$1000 bond. The search for this moonshine still has not yet been undertaken.—Milano Gazette.

WHY NOT A LYCEUM COURSE INSTEAD OF CHAUTAUQUA?

In a few days we are going to be called on to make our plans for another year so far as the Chautauqua is concerned, and it seems to me while things are fresh in our minds that we ought to consider whether we do not want to make a change in the amusement side of our town life.

We want to suggest that instead of the Chautauqua idea that we turn to some good Lyceum course. There are several reasons why this appeals to some of us at this time.

First: We now for the first time have an attractive and well equipped place for such things in the auditorium of the Yoe High School. It will be little less than a shame to make no more use of this fine hll than we are going to this winter unless we have some features as this.

Second: We have our fun and frolic under far more comfortable circumstances than we are getting in this summer. We have failed to find anything in our experience that has equalled the temperature we have enjoyed (?) under a certain big tent some of the afternoons of this week. Artists could not do their best and we may be sure that they do not remember our city with any degree of pleasure. The heat wears one out and takes the pleasure out of the thing for a great many people.

Third: It comes when we are worn out with school closing exercises and we are tired of going.

Fourth: We are forced to take a seven day program that calls for a Sunday entertainment that is against the conscience of a large number of us who otherwise would be more whole hearted supporters of the Chautauqua. It is commercializing the Sabbath and allowing outsiders to do what we do not allow home people to do. It is one step in the drift to a wide open Sunday in Cameron. We may gain some people from the outside by having this all the week program but we are cutting out some folks who are vitally interested in the welfare of the town. Is it not possible for us to have our amusement in such fashion that it will be possible for all of us to enjoy all that comes?

We are not going to lose anything by the change. We can get just as good talent and we will be able to enjoy it all the more by reason of not coming all at one time. We think too that we will have better audiences for our business men and workers of the town cannot attend the afternoon programs, but could take in practically every number of some good Lyceum course.

H. R. McFADYEN.

RAILROAD PUTS IN NEW PLANT TO PUMP WATER

The I. & G. N. railroad company installed a new boiler and pumping apparatus last Friday at their water tank two miles east of Milano. The old boiler had been giving trouble for a year or more, but under the supervision of Mr. B. N. Ashley it had been coaxed along to do what it could and the tank was always kept full of water. Mr. Ashley has been pumper at this place for 14 years next August. The old boiler and pump were good friends of his, but they had worn themselves out and he now takes a delight in filling up the tank in just a very short period of time.—Milano Gazette.

Salts to flush out Kidneys—
Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

GRAMMAR SCHOOL GRADUATION HERE MONDAY, MAY 30

Grammar School Exercises was held in Cameron at ten o'clock Monday morning, May 30, in the Grammar School Building. The program as announced by R. B. Parsons, principal of the school was as follows: Processional—Miss Lucille Dickard. Invocation—Rev. S. B. Culpepper. Song—Class. Salutatory—Second Honor Graduate. Piano Solo—Cora Mae Link. Valedictory—First Honor Graduate. Piano Solo—Fred Johnson. Address—Mrs. W. O. Triggs. Presentation of Diplomas—Supt. L. H. Kidd. Awarding of Sixth and Seventh Grade Honors—Mr. R. B. Parsons. Benediction—Rev. H. R. McFadyen.

BACK BAD TODAY?

Backache is usually kidney-ache and makes you dull nervous and tired. Use Doan's Kidney Pills for weak kidneys—the remedy recommended by your friends and neighbors. Ask your neighbor! F. A. Moseley, farmer, 2nd St., Cameron, says: "Doan's Kidney Pills have been a standard medicine with

FROM REMOTEST PARTS OF THE GLOBE Tanlac Elements Comes From Many Lands Far Away From Here The ingredients from which the cel-

ebrated medicine, Tanlac, is made, come from remote sections of the earth and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, nd Walkersville, Canada.

The Alps, Appenines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton,

me for many years. Several years ago I was right down and out with my back, and was in such a condition that I could hardly do a thing. My back ached all the time and my kidneys were irregular and the secretions contained sediment, that I looked like brick dust and the passages were very painful. I tried several kinds of kidney medicine but the only kind that did me any good was Doan's Kidney Pills. They cured me of the attack; I am proud to recommend Doan's Kidney Pills for they are just what is claimed for them."

60c, at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to ten of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this or any other medicine.

"Tanlac is sold in Cameron by New Cameron Drug Co., in Rockdale by Baldrige Bros., in Milano by E. C. Smith and in Burlington by the New Drug Store. adv

Piles Cured in 5 to 14 Days

Druggists refund money if EAZO OINTMENT fails to cure hemorrhoids, Bleeding or Protruding Piles. Doan's Kidney Pills, 60c, at all dealers.

BITTEN BY SNAKE BUT

ABLE TO WALK NEXT DAY

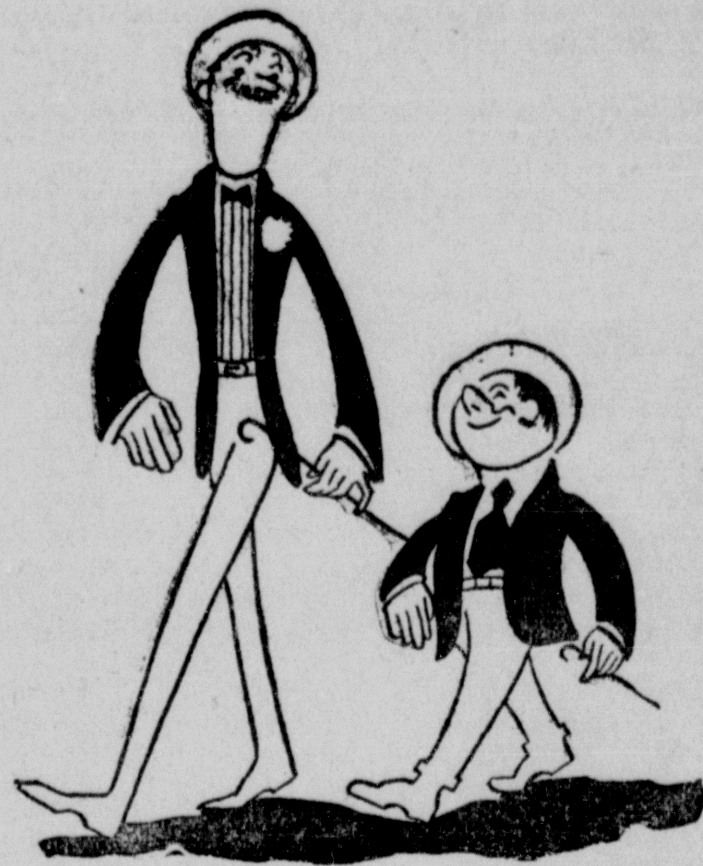

Mrs. E. R. Cates of the Pikes Peak community was bitten by a copper head snake last Friday on her ankle while she was pulling some branches from a tree. She killed the

snake and then went to the house and gave her foot first aid treatment with kerosene oil. The next day she walked to town. Mrs. Cates says this is the fourth time she was bitten by snakes, and last week alone she killed three chicken snakes, and two other kinds and a few days before that she had killed two snakes around the place.—Milano Gazette.

MILANO OFFICERS CAPTURE CITIZEN WITH MOONSHINE

An aged man who lives a few miles south of Milano was caught delivering moonshine whisky in town last Saturday afternoon. Judge W. E. Peel, Constable Fount White and Officer Will Hensley were on the

watch when he laid the quart of whisky the man was arrested and taken to Cameron by automobile. Local officers have for several months been on the watch for the man, as he had been under suspicion for a long time. No purchaser of the whisky was rounded up, as no one but the officers saw the bottle being put down. Making moonshine and selling it are two dangerous vocations in this day and time, and the man who engages in such an occupation is certainly taking big chances in violating the laws. At the examining trial held Monday the man was placed under \$1000 bond. The search for this moonshine still has not yet been undertaken.—Milano Gazette.

MARTIN'S SCREW WORM KILLER kills with one application, heals wounds, and keeps off flies. More for your money and your money back if not satisfied. Guaranteed by Druggists and Dealers.

Just received a fresh shipment of hitman's Candy. Jackson & Read

DUMFRIES, SCOTLAND, PAPER RECEIVED IN CAMERON HAS TWO AMERICAN EAR MARKS

The Duffries Standard, Scottish weekly newspaper, is received in Cameron each week by Mrs. McLerran, native of Scotland. The paper has many unfamiliar features as to make up when compared with American papers. For instance: The front page and the back page are devoted to classified advertising. The reading matter and display ads are inside.

The only ear marks of American in the paper are the advertisements of dealers in Ford cars and Overland cars. One advertisement contains the new prices on Overland. The Ford Sedan is advertised for approximately \$2000. They sell in Cameron for \$900.

SEVEN CATTLE DIPPING CASES IN JUSTICE COURT

Seven separate cases of failure to dip cattle came up in Justice Court here at Milano Thursday of last week. Three cases were from the Sand Grove community and each of these paid a fine of \$37. One case from Maysfield was appealed to the county court. Two other cases were continued and one case was dismissed. Several cases of other violations of the law came up, one being two negro women of near Gause whose case was compromised by one fine for disturbance of the peace. This monthly session of the court brought in a large number of people to town who were interested in the proceedings.—Milano Gazette.

YOUNG MAN'S OPPORTUNITY

There are from twelve to fourteen million bales of cotton raised annually. Every bale has to be classed from one to four times, seldom by the same man twice. Until the last five years there have been no training schools in this line, consequently the supply of men for this work is limited. Thousands of warehouses are being erected in this country and every warehouse requires two or three men to handle the cotton. The Commissioner of the Market and Warehouse Departments has appointed a Board of Examiners to examine applicants for license as appointed a Board of Examiners to examine applicants for license as Public Cotton Classers. To those passing a license is issued to engage in the business of Public Cotton Classing and to charge for his services. These examinations are open to both men and women. Practically and village where cotton is sold will employ one or more licensed cotton classers.

Aaron Sapiro, Organizer for the National Marketing Association says that between 10 per cent and 16 per cent of the entire cotton crop is lost

to farmers on account of incorrect grading. It is the purpose of the Association to have competent Cotton Classers grade their cotton for all farmers belonging to the Association. This statement from one who is in a position to know shows two things, first that the man who raises cotton should be able to class it, to protect himself from loss, and second, that there is a wide and growing field of employment for the competent man.

Cotton is the leading product of the South and will continue to be. Every young man of the South should know the classification and handling of cotton. More money is lost each year by the farmers on the marketing of this product than all other crops combined. The man raising it often knows nothing about marketing it and is therefore wholly at the mercy of the man buying. The facts we lose thousands of dollars each year for the lack in the Cotton Classing Department of our institution, the Tyler Commercial College of Tyler, Texas, is in a much of trained men.

The young man or woman trained better position to take one of these many positions that are opening up, or to protect his own interests as a grower, than one who has had no training, or a training by guess. In four weeks' time we can prepare you to save this year more than double the cost of your learning, or to take a good position with unlimited opportunity. We have been asked, "How do you teach Cotton Classing so successfully?" Believing that the time has come when the South needs to know more about her leading product when the farmer should know more about marketing the crop which he labors so earnestly to produce, and which means meat and bread to his family, we have equipped our department so that the most efficient teaching possible may be done. Our teachers understand classing, stapling, buying and selling from a practical standpoint, and are expert in the training of students. The head of this department is constantly in touch with the Agricultural Department at Washington, D. C. and at Austin, Texas, from whom we get the Government types; besides these purchase samples in quantities of three to four thousand. For full particulars, fill in and mail coupon for free catalogue.

It's Wholesome

—Peanut Butter on bread is about as fine for your growing youngsters as any food you could think of. Peanuts are considered today a splendid article for diet and especially good for children. We sell a great deal of this brand, which is one of the best on the market. All our goods in glass and tin are equally fine.

MISS CURTIS HONORED

The Presbyterian choir complimented Miss Clara Curtis with a reception on the porch and lawn of the beautiful home of Mrs. John Watson Tuesday afternoon from four to six o'clock.

Mesdames John Watson, U. S. Hearrell, Giles Avriett and T. N. Herring stood with Miss Curtis on the porch to welcome the guests.

Misses Dallie and Mary Young served delicious punch on the lawn. The dining room was decorated with pink hearts and blue birds for happiness.

The dining table was covered with a cluny lace piece on which rested a reflector with a basket of sweet peas.

Mrs. Thad Epperson, Misses Mary McLane and Grace Gillon served delicious angel food and white cake, pink brick cream. Sweet peas were plate favors.

A short program in which Misses Clark and Minnie Wolf delighted the guests with several numbers furnished diversion.

The following from the Dallas News will be of great interest to Milam County and Cameron people.

Although Dallas now claims Mr. A. E. Brady he is a product of our county, born and reared in Cameron and his family still reside here.

Dallas Man Will Go to Europe for Y. M. C. A.

A. E. Brady, who has been business secretary of the local Y. M. C. A. for four years will sail for Europe about June 15 to take up Y. M. C. A. work in Berlin and in Russia. He will spend about six months in Berlin and expects to remain in Russia eighteen months.

Mr. Brady attended a school in Cleveland conducted for Y. M. C. A. foreign workers last year, where he learned the Russian language. He was one of five chosen from forty-five who applied for foreign service work.

It had been planned for the workers to leave in January, but conditions were so unsettled at the time the date was postponed.

At present Mr. Brady is visiting his brother, W. A. Brady of Temple.

BRIDGE CLUB

Last Friday afternoon the Bridge Club was delightfully entertained by Mrs. Rush Thomas at her home on Hefley Heights.

The home was beautifully decorated with daisies and Cape Jessamine.

Three tables were arranged and the score cards featured aces of hearts and diamonds in red.

After a number of pleasant games Mrs. John Watson was given a large bouquet of daisies for winning high score, while Mrs. U. S. Hearrell was consoled with a bunch of Cape Jessamine.

Mrs. Frank Lesovsky joined the club members for the aftermath, and a delicious two course luncheon was served consisting of cheese salad, frozen fruit, nut sandwiches, tea, olives and tea punch.

Each lady was presented with a corsage bouquet of daisies.

FAREWELL PARTY

The Priscilla Club honored one of their members, Mrs. T. N. Herring, with a party last Saturday afternoon at the home of Mrs. Jim Watson.

The party was held on the porch and the decorations were the club colors, gold and green. Daisies were artistically used in the decorations.

Needle work was the diversion of the afternoon interspersed with the reading of a farewell poem and many expressions of regret that Mrs. Herring was moving away.

Gold and white brick cream with individual cakes were served.

Mrs. Winnie Whitley, of Dallas was guest other than the club members.

LOCALS

Mrs. Belle McKinney of Waco is visiting her daughter, Mrs. J. W. Coleman and Mrs. Paul Medsker.

Mr. Dan Gilleland of Tracy, was also in to see his nieces, the Misses Smith graduate.

W. T. Hefley of Temple was in Cameron Tuesday night to see his brother, Thomas and sister, Frances, graduate.

Alarm Clocks at special prices. J. J. Parma's.

Mr. and Mrs. J. T. Parma and little daughter, Mildred were out of town visitors this week.

Born to Mr. and Mrs. Vorige Py-lant, May 28th, a 11 lb. boy. Mother and son doing fine.

Mrs. R. L. Bette, Sr., left Wednesday for Corsicana to be present at the graduation of her youngest brother, Isaac McNally.

A fine young son arrived last week to brighten the lives and hearts of his parents, Mr. and Mrs. J. C. Tucker.

Mr. and Mrs. J. W. Thomas of Rogers were in Cameron Tuesday.

Mr. and Mrs. Y. Delavan, of San Antonio, are visiting Mrs. Delavan's brother, Mr. G. E. Marshall.

(Continued from page 1.)

about the construction of a cotton mill in Cameron. The Club sought the opinion of Bagley that its committee might be more thoroughly conversant with the possibilities of manufacture from cotton in Texas.

Mr. Bagley was elected honorary member of the Club.

Following is a copy of the minutes of the meeting as submitted by Secretary W. B. Skelton:

Officers: Robt. McLane, President, W. W. Chambers, Vice President, W. B. Skelton, Secretary.

Directors: H. J. T. Parma, C. R. Phillips, Giles L. Avriett, H. M. Hefley, J. B. White, C. W. Lawrence, F. S. Lesovsky, W. G. Gillis.

Committee Chairmen: R. H. McIntosh, J. R. Hays, T. S. Henderson, W. M. Cobb.

Minutes of previous meeting were read and upon motion adopted.

J. R. Hays, chairman of the Publicity Committee, reported a suitable grounds had been obtained back of the cotton yard for a baseball field and that there would be a meeting of the baseball enthusiasts Saturday morning at 10 o'clock.

C. W. Lawrence, chairman of the Insurance Key Rate Committee reported that he and two members of the committee went to Austin and conferred with the State Fire Commissioner relative to the Cameron key rate and that as soon as engineers could come down from that department he felt sure the city would get an additional 10 cent reduction in the key rate.

F. S. Lesovsky, chairman of committee of the Yoe Memorial Committee reported that Mr. Atkinson's committee had been at work and that the pledges to date of this fund totaled \$2401.50 with cash collected in the amount of \$821.00 which added to the amount cash contributing banks had pledged would total \$946.00 cash, leaving a shortage of \$1600 in pledges and \$54.00 short of the amount of cash needed at the present time. Upon motion from T. S. Henderson seconded by W. M. Cobb, the Committees were commended and thanked for this work and given further time in which to complete it.

Upon motion from T. S. Henderson, seconded by W. W. Chambers, the regular order of business was suspended that Mr. J. B. Bagley, head of the Textile Engineering Department of A. & M. College, who was here at the invitation of the club to speak on Cotton Mill possibilities in Texas, was introduced by T. S. Henderson, Sr.

Mr. Bagley made a very interesting talk on the Textile industry and its relation to the south and more particularly to Texas, giving a financial statement of an eight months run of a cotton mill built several years ago at a cost of \$100,000.00, and using cotton for eight months that cost from 5c to 6 1-2c per pound, the statement being clearly analyzed and giving the cost of production per pound for the finished product. Mr. Bagley also went into detail regarding the labor situation and other matters of importance with regard to building a cotton mill and expressed enthusiasm over the possibilities of the Textile Industry in Texas.

W. W. Chambers introduced Mr. Lowery of the Home Builders Association who came before the Club with his company's loan and investment proposition, in conformity with the resolution passed by the Club regarding investment in outside enterprises. Mr. Lowery spoke briefly about his organization and stated that it operated under the Insurance and Banking laws of Texas and Declaration of Trust and asked the Club for an indorsement if it saw fit. Upon motion from F. S. Lesovsky, seconded by W. M. Cobb, a committee was appointed to look into Mr. Lowery's proposition. The following committee was appointed by the President: T. S. Henderson, Jr., Chairman, J. R. Hays, C. W. Lawrence, W. G. Gillis.

Upon motion from T. S. Henderson, Mr. J. B. Bagley was given a vote of thanks for his visit and lecture and was made an honorary member of the club.

U. S. Hearrell mentioned the fact that the road to Rogers was the best in Texas with the exception of that part between Cameron and Ad Hall and that by all means this strip of road should be put in first class repair. Upon motion from T. S. Henderson, duly seconded, this matter was referred to the Good Roads Committee.

W. P. Mangum called attention to the Jones Prairie road near the Collier School House, which road he stated was in an awful shape. Mr. Avriett stated that no estimate had yet been given on this road and it would be looked after before accepted.

T. S. Henderson stated that the Cotton Classifier had asked for a vacation beginning the 10th of June. Upon motion from Giles L. Avriett, seconded by U. S. Hearrell this matter was referred to the Cotton Classing Committee.

Stanley Holik of Caldwell, is visiting his sister, Mrs. Frank Lesovsky.

(Continued from page 1.)

fices for the human race.

Among these he told of the man who by selection and seed testing had increased the corn belt yield 30 per cent, P. G. Holden of Iowa.

The man who saved the crops of the Middle West from the ravishes of the grasshopper, Geo. Babcock of Dakota. He accomplished this by finding that the nits hatched from the eggs of grasshoppers, had their heads pointed upward and could not turn round, so by the simple expedient of having all the farmers turn the soil at the proper time, the nits were sent down the war hero deserves a place in the ward toward the bowels of the earth, where they perished and the crops were saved.

He told how Louis Pasteur and his office assistant, John Behring, saved the lives of millions of children by discovering the cause of diphtheria and the anti-toxin which prevents this dread disease.

Of Dr. Kitasato, who conquered Bubonic Plague; Jesse W. Lazear, of Iowa, the man who gave up his life to prove that the cause of yellow fever was the bite of the Stegomyia mosquito, and as a result of his self-sacrifice, not a death on Continental United States since 1910 has resulted from yellow fever.

However, he thought that the greatest gift to the race, of all time, perhaps, was anaesthesia, made by Crawford A. Long of Georgia, which made possible the surgical operation without pain.

Dr. Adrian said that in his opinion the war heroes deserves a place in the hall of fame only if his character and high service in other ways as well as in battle, make him worthy of immortalization, like George Washington and Robt. E. Lee, both of whom would have been great even if they had not been leaders in war.

He mentioned Thos. A. Edison and Luther Burbank as the two most useful men in the United States and recommended that their likeness adorn the walls of our public schools, rather than those of warriors.

CLASSIFIED ADS

FOR SALE

FOR SALE—18 inch oscillating fan, used two seasons. Apply to Dr. G. B. Taylor.

NOTICE—I have for sale some choice Jersey Cows and Heifers and one registered Jersey Male, and 3 Yearlings. Also some hogs for sale. For price on same see me at my residence. L. Marburger. 5-3t.

LAND FOR SALE—13 acres southeast of Cameron joining city limits. Well improved. See Antone Walzel, at Santa Fe Blacksmith Shop. 4-4t.

VACCINATION IS PREVENTATIVE TO CHECK SMALL POX

RED CROSS TELLS THROUGH LO-
CAL CHAPTERS HOW TO PRE-
VENT DISEASE

Dr. A. S. Epperson, chairman of the local chapter of the American Red Cross, has received the following communication from the Red Cross relative to the prevention of small pox:

A community or a family that has a small pox epidemic these days has only itself to blame. In fact, since the discovery of the preventive powers of vaccination more than 100 years ago, small pox has become one of the few diseases which are absolutely possible to control. A small pox epidemic may well be regarded as a preventable disgrace to a community.

Small pox is essentially a cold weather disease. A mild epidemic was predicted for this winter due to the increasing number of cases in Canada the past two years. The mildness of the present winter, however, did much to check its progress.

In discussing small pox there is but one thing to say, "Vaccination." In communities where vaccination is compulsory and the law is enforced it is practically non-existent. Vaccination should be done about the fourth to sixth months of the baby's life. In 90 per cent of cases the first vaccination "takes." In most cases the first vaccination protects a person throughout life but in some people the immunity dies out in a few years; but the size of the scar is not a true indication of the need for a additional vaccination. The safest rule to follow is that of vaccination in babyhood, in adolescence, and again in middle age. If small pox breaks out in a community, however, you should be vaccinated again at once, regardless of the number of previous times. If it "takes," it shows you were susceptible to infection and would likely have contracted small pox without vaccination.

So what's the use of taking a chance on the pest house and a pitted face the rest of your life.

DIARRHOEA IS NATURE'S WARNING

You Need Medicine And It Without
Delay

This is the time of the year when colic, flux, diarrhoea and kindred ailments are prevalent. Sufferers are warned to take immediate steps for relief, because the very first pain is nature's red flag of warning.

People in this part of the country have learned to depend upon that most efficient remedy sold by leading druggists. "Nash's Diarrhoea Mixture." It has been made and used for years and usually the first dose is all that is needed.

This mixture is compounded from soothing, healing drugs that have been used by physicians in their practice and will prove beneficial in all cases of cholera morbus, cramp colic, summer complaint as well as dysentery among children and adults. It is best to keep a bottle in the house at all times.

Get the kind put up by Nash Bros.—Nash's Diarrhoea Mixture—the genuine. Sold by Jackson & Read Pharmacy.

Storage Room

I have room to store household goods in brick building with cement floor. Terms reasonable.

YOUNG MAN'S OPPORTUNITY

There are from twelve to fourteen million bales of cotton raised annually. Every bale has to be classed from one to four times, seldom by the same man twice. Until the last five years there have been no training schools in this line, consequently the supply of men for this work is limited. Thousands of warehouses are being erected in this country and every warehouse requires two or three men to handle the cotton. The Commissioner of the Market and Warehouse Departments has appointed a Board of Examiners to examine applicants for license as appointed a Board of Examiners to examine applicants for license as Public Cotton Classers. To those passing a license is issued to engage in the business of Public Cotton Classing and to charge for his services. These examinations are open to both men and women. Practically every village where cotton is sold will employ one or more licensed cotton classers.

Aaron Sapiro, Organizer for the National Marketing Association says that between 10 per cent and 16 per cent of the entire cotton crop is lost to farmers on account of incorrect grading. It is the purpose of the Association to have competent Cotton

Classers grade their cotton for all farmers belonging to the Association. This statement from one who is in a position to know shows two things, first that the man who raises cotton should be able to class it, to protect himself from loss, and second, that there is a wide and growing field of employment for the competent man.

Cotton is the leading product of the South and will continue to be. Every young man of the South should know the classification and handling of cotton. More money is lost each year by the farmers on the marketing of this product than all other crops combined. The man raising it often knows nothing about marketing it and is therefore wholly at the mercy of the man buying. The facts we lose thousands of dollars each year for the lack in the Cotton Classing Department of our institution, the Tyler Commercial College of Tyler, Texas, is in a much of trained men.

The young man or woman trained in a better position to take one of these many positions that are opening up, or to protect his own interests as a grower, than one who has had no training, or a training by guess. In four weeks' time we can prepare you to save this year more than double the cost of your learning, or to take a

good position with unlimited opportunity. We have been asked, "How do you teach Cotton Classing so successfully?" Believing that the time has come when the South needs to know more about her leading product when the farmer should know more about marketing the crop which he labors so earnestly to produce, and which means meat and bread to his family, we have equipped our department so that the most efficient teaching possible may be done. Our teachers understand classing, stapling, buying and selling from a practical standpoint, and are expert in the training of students. The head of this department is constantly in touch with the Agricultural Department at Washington, D. C. and at Austin, Texas, from whom we get the Government types; besides these purchase samples in quantities of three to four thousand. For full particulars, fill in and mail coupon for free catalogue.

I Will Pay \$10,000 For The Best Thoughts on One of My Problems

Thomas A. Edison

IN 1851, RALPH WALDO EMERSON said: "Could I only have music on my own terms, whenever I wished the abolition and mutation of musical waves, that are a bath and a medicine."

Emerson spoke the thoughts of millions, and voiced a need of all humanity.

It is obvious that the phonographic reproduction of music affords the only means of providing music of practically every variety, wherever and whenever it is desired; without this means, even those who live in the great centers of music, can hear it only at conventional hours—and, then, not always the kind of music they most need and desire.

To make the phonographic reproduction of music serve the need expressed by Emerson, it is necessary that the reproduction shall preserve—the original music—the greatest short-coming of the phonograph has been its lack of realism. The result of this shortcoming in our new invention, which is baffling to even the most expert ears, is a direct comparison is made between living singers or instrumentalists and the reproduction of their work by our new instrument.

Were Emerson alive today, I feel that our new phonograph would be accepted by him as a satisfactory answer to the need, which he expressed. At any rate, the psychological research work, which we have been conducting for nearly two years, indicates that

the well known and almost incalculable benefits of music can be derived, in full measure, from the proper use of this new instrument.

Psychologists, physicians, and other scientists appreciate that our object is to provide music of the best sort, under conditions that will insure the largest benefits. The new phonograph, which we have developed, is merely the instrumentality by which I am endeavoring to place truly fine music at the command of every household.

A great many people have said that they regard this new instrument as the best phonograph in existence. While such statements are naturally gratifying to me, I find that the importance of our work in the field of music is somewhat obscured by the fact that so many people continue to think of a phonograph merely as a phonograph. They may think of it as the best phonograph—but it still is only a phonograph to them.

I want a phrase, which will emphasize that our new instrument is not a mere machine, but that it is an instrumentality, by which the true beauties and the full benefits of music can be brought into every home.

The phrase should not contain more than four or five words. I want a dignified expression, which will clearly distinguish this instrument from all other sound reproducing devices.

I have authorized that \$10,000.00 in prizes be paid for the best ideas submitted.
(Signed) THOMAS A. EDISON

Details of Mr. Edison's \$10,000.00 Prize Offer

can be obtained from the Edison dealer in your locality. If you do not know him, write for his address to the New Edison, the Edison dealer will afford you every opportunity to become familiar with it and will supply you with all necessary literature.

All ideas must be submitted upon blanks, which the Edison dealer will provide, and must be mailed prior to September 2nd, 1921.

You do not have to be a trained writer in order to win one of the prizes. Ideas are what count.

3 Day Free Trial Offer Coupon

You may deliver to my home a New Edison and a program of RE-CREATIONS for a three days' free trial, in order that I may learn what music will do for me. It is understood that I assume no expense or obligation whatsoever.

OAKDALE HAPPENINGS

Edited by Mrs. Sid Hause

Oakdale, May 30.—The last week end Mr. Chatman of Ad Hall was to see his son, A. L. Chatman, and the same week his son, Luther Chatman, helped his brother, A. L. Chatman, chop cotton.

They all in this way are wanting it to rain some on their corn.

Saturday G. W. Batey and daughter Mrs. Lettie Shelton was attending to business in Cameron.

Hoyle had a meeting of the School Board and others among them were Mrs. T. A. Pope. She several years ago gave school grounds to build on, now they are thinking of moving the buildings and Mrs. Pope wants her land back and is willing to pay for it.

The community may want another kind treatment some time.

Little Miss Elizabeth Heitman has returned home from Cameron where she has been attending school.

The Macek brothers were in Cameron Saturday, and so were the Heitman brothers.

Mrs. Ashenbeck is home after spending a week with her daughter, Mrs. Beckhusan, at Rosebud.

We hear that Mrs. Oscar Garner of Marlow is very sick again and her sister from Oklahoma came in to see her Saturday night.

I have learned that the trustees at Hoyle have secured Mrs. Shelton as assistant teacher and they will want another as principal. I was asked the other day to look out for a good teacher for the Prospect School.

Friday Mr. and Mrs. Sid Hause had his nieces, Misses Mary and Vance Randolph for dinner. Their father was with them. In the afternoon the girls and Mrs. Hause went to Milano to see the trustees and feel like everything was all right, but of course they do not know just how things turn out.

Last Friday evening Mr. Jean Mobley lost his little boy that had been sick for about two weeks. He lost his mother two years ago.

Mr. and Mrs. Lee Batey spent Sunday at Rice with her brother and Earnest and wife.

Friday night Messrs. Theo Ashenbeck and Hugh Wimberley attended a party at Liberty.

Mr. and Mrs. Chatman and neighbors had cream. Mrs. Canady and her neighbor Mrs. York made cream. They had some of their friends with them.

Sunday the Sprayberry family went to visit his sister and her husband Mr. and Mrs. Tom Niles near Milano.

Mr. Homan Thompson of Prospect spent the day Sunday with his friend, Mr. Sid Hause.

Mrs. Miller of Liberty spent Sunday with her mother here, Mrs. Williams.

Mrs. Clyde Hensley had the misfortune to burn her foot last Tuesday very badly. She doctored it for a while and sent for Dr. Monroe.

Mr. Enoch Fisher, Jr., has returned to his work at Fort Worth. His wife went to Houston to see old friends and from there to Hull to visit her mother.

Mrs. G. W. Batey was sick Sunday.

The Christian people had services Sunday at Oakdale, with a very good crowd.

Miss Nancy Ethridge closed her school at Curry last week and will get home today and will go to Huntsville next Sunday.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, etc. Hall's Family Pills for constipation.

S. R. GUGGENHEIM

S. R. Guggenheim, American steel magnate.

BRANCHVILLE

The main talk since the tone test Tuesday night is, as one would expect how very much alike the real voice and the Edison Re-Creations are.

Mr. W. E. Steger while plowing one of his truck patches went to help his mule out of a wire entanglement and the mule kicked him just above the right knee and broke his leg. He has been suffering a lot but is resting better this week.

Mr. Steger's son from Dallas is here and expects to remain with him a week.

Mr. and Mrs. J. O. Roark spent a part of Wednesday and Thursday with Mr. H. M. Roark and family in Thorndale.

Mr. Harry Self made business trips to Hearne Wednesday and Saturday.

Mrs. John A. Smith entertained the A. Y. L. I. Club and their husbands Thursday eve and all enjoyed it very much. It was the first real social

gathering of the season.

We hope for others as we know it is good for all to get together and that kind of a gathering comes as near getting all as anything.

There were fewer at the Literary Society Friday night than usual owing to that fact that we have all been real busy and some few felt too tired to get out. However a nice little program was rendered which was enjoyed by all. The music by Mrs. Roy Yates and her brother, Mr. Buren Porter, needs special mention as we are not fortunate enough to have them with us very often.

The children who failed to make their grades this year were given a special "zam" by Prof. Roark Friday to see if they could yet make their grades. We surely hope they succeeded.

Mrs. Paul Porter visited her mother, Mrs. T. L. Randolph in Cameron Wednesday.

Mr. and Mrs. L. O. Walker and Mrs. Al Harlan went to Calvert Wednesday eve to a school exercise.

Mr. and Mrs. Robert Self visited in Gause Sunday.

Mr. V. H. Bryan and family visited Mrs. Bryan's parents, Mr. and Mrs. Jim Peel Sunday eve.

Mr. and Mrs. J. O. Roark spent Sunday eve with Mr. and Mrs. Voss Harlan.

Mr. and Mrs. John A. Smith visited

in the home of Mrs. Vincent, sister of Mr. Smith Sunday eve.

Mrs. Roark gave the young people a party Saturday night and there were several visitors from Maysfield.

Miss Elizabeth Tyson who is in Southwestern, spent the week end at home.

Mr. and Mrs. Guy Newton of Hon-

do are visiting relatives here and at Maysfield.

No prayermeeting Wednesday night as there were so many attending exercises at other places.

Sunday Schools were both good.

"SPEAKING OF WOMEN"

IRVIN COBB points out that feminine shopping does not necessarily imply buying. It means hard work for everyone concerned—but seldom results in a transaction involving money.

As a country minister once declaimed: "King Solomon said, and I partially agree with him . . ." We only partially agree with Mr. Cobb on this subject.

It is true there are still some aimless shoppers left. But they are in the minority. Today most women—as well as most men—are well-informed buyers, with a sound basis for comparing stores and values. By buying goods of recognized merit they save themselves the throes of old-time "shopping trips" and at the same time get a better and bigger money's worth.

Most women read the advertisements that appear every day in their newspapers. They make a practice of keeping strictly up-to-snuff on new developments, innovations and improvements. They know just where to go for "this" and who in town keeps "that."

When they shop they generally know just what they want, where to find it, and how much to pay. Their knowledge saves them endless trotting, wearisome questioning and haggling.

The advertisements have taken the "hop" out of shopping.

ISN'T THAT WORTH WHILE?

Announcement

How would you like to have a cedar chest made from the wood of old Fort Nashville? This Fort was built in 1833 and is one of the oldest forts in Texas and has some very interesting historic words and some very daring deeds have been pulled off at this old fort.

Old as these logs may be they as distinctive as any aroma, is the same as if the timber was cut yesterday. With each chest we will give an affidavit that the chest is made from the old fort. You will have to get your order in early on this—it will be quite an honor to have a chest made from "THE OLD FORT NASHVILLE." Prices for chests given on application.

Have You Seen One of Our Cedar Chests?

PRESIDENT GETS LETTER FROM HEAD OF ARMENIAN CHURCH

Washington. — Archbishop Khoren, whose archepiscopate is Erivan, capital of the Armenian Republic, journeyed seven thousand miles to present President Wilson one of the quaintest and most touching documents in the archives of the State Department. It is illuminated by the monks of Etchmiadzin, the seat of the Armenian church since its separation from the Greek church, after the Council of Chalcedon in the year 451.

The Encyclical Letter, which the Archbishop presented to the President, reads:

"GEORGE, Servant of Jesus Christ and by the Omnipotent Will of God, Arch-Priest and CATHOLICOS OF ALL THE ARMENIANS, Supreme Patriarch of the highest Armenian See of Ararat and of the Apostolic Mother Church at Etchmiadzin the Holy.

"To the NOBLE CITIZENS OF THE UNITED STATES OF AMERICA.

"AFFECTIONATE GREETINGS AND BLESSINGS from the CATHOLICOS OF ALL ARMENIANS and Apostolic Chief of the Holy Church of Armenia.

"With placid, profound feelings of devotion, we desire, through this

ARCHBISHOP KHOREN

encyclical Letter of Ours, to place before you and to make known to you the expression of Our deep gratitude for the liberal help which, inspired by a spirit of philanthropy, you have extended to Us both by individual personal donations and through the sustaining assistance and alleviating instrumentality of the Near East Relief Organization. Individually and Collectively, combined in one body as it were, you gave and you brought to Us the fruits of your offerings, to the consolation and protection of Our Flock during the most bitter days of their suffering—sufferings which We attribute to the rigours of the War of Liberation, and to the cruelty of Our implacable Oppressors.

"In expressing Our thanks for your generosity and for your evangelical commiseration, We, as the recognized Head of Our Spiritual Children, comprising the entire Armenian Nation, would be glad to view your acts of mercy as tokens of your continued assistance in the future, and that it is your purpose to continue to assist Us in Our regeneration and complete liberation, in the habitation of a self-governing Nation. With these things in mind, We appeal to you all; to the Prelates of your Churches; to your devout Bishops, Our Brethren and beloved in Our Lord Jesus Christ; to men endowed with political and civil acumen; to those who have been called upon by the Lord in the Conduct of Public thought; and to every soul in which the spirit of Christian philanthropy glows. Come to our defense and to the cause of the Freedom of Our Flock. Come from the pulpits of your Churches; from the seats of your Council Chambers; from the platforms of Public Associations; from the sanctum of your journals. Raise the mighty voices of your Nation and of your sympathetic people, as those of unfailing and unfaltering friends. We need them for the salvation of Our Flock, tortured in body and soul through centuries of suffering. And Our people will forever stand in history as witnesses that a Great Nation, prolific of welfare, stretched its helping hand and mighty arm to raise them up.

"The Grace of Our Lord Jesus Christ, and Our thankful Blessings be with you all, evermore, Amen.

"GEORGE V.,
Catholicos and Supreme Patriarch of All Armenians."
During the VIII. year of Our Patriarchate at the Mother See of Ararat, Etchmiadzin the Holy.

MAJOR GENERAL HARBORD SUPPORTS ARMENIA

New York.—At a mass meeting recently held here to consider the need of Armenia in the appalling disaster that has overtaken that unhappy land the following telegram was received from the commander of the Second Division:

"True to their religion, language and race through a thousand years of persecution, the Armenians must not be permitted to perish. Americans should aid them with moral, financial and political support."
"J. G. HARBORD."

Hundreds Hear Tone Test Artists In the Great Music Treat Here Tuesday Night

Positively, the greatest musical treat of the year—an incomparable test for a musical instrument—was the universal verdict of more than twelve hundred music lovers of Cameron on Tuesday night, May 24, when Miss Sibyl Sanderson Fagan and Miss Helen Davis and Mr. Willard Osborne appeared in direct comparison with the New Edison recreation of their voices at the Yoe High School Auditorium.

Besides a test of musical quality which no other instrument has attempted the event brought to Cameron an entertainment as celebrated as any production in America featuring artists who are real artists from the Edison Laboratories.

The Edison Tone Test by the New Cameron Drug Company is an annual musical event to which Cameron looks each year with interest.

The New Edison on Tuesday night proved to Cameron that the claims

made of its merits are after all very modest, that its qualities are marvelous in this almost unbelievable tone test.

One of the most unique and thoroughly pleasing recitals ever given in Cameron was presented last Tuesday evening at Yoe High School Auditorium by Miss Helen Davis, Sibyl Sanderson Fagan and Mr. Willard Osborne. The recital was an artistic success in every respect and New Cameron Drug Company is to be congratulated for securing these capable and charming artists for an appearance here.

When Mr. Osborne appeared on the stage and stated that Miss Helen Davis would sing in unison with the Re-Created voice and that the audience would not be able to tell the difference between Re-Created and living voice, many persons were skeptical. Attempt to match that glorious voice with a device of mere wood and metal, impossible. The skeptics were soon convinced, however, for in Miss Davis' initial number on the program, her lips ceased to move, but her song went on. Slowly it dawned on the mystified audience that Miss Davis was no longer singing, though her voice sang forth as clear and sweet as before. Again she sang but the audience only knew it was the living Miss Davis by the motion of her lips. It seemed as if there were two artists on the stage—two singers, but only one voice. The tones emanating from the New Edison were identical with those of the living artist, and it was impossible to detect any difference. The instrument produced not an echo or copy, but the real thing—Miss Davis' voice, untainted by any mechanical transformation—unspoiled by any metallic ring.

After the applause which followed this "miracle" exhibition Miss Sibyl Sanderson Fagan shared the stage with her fellow musician, the New Edison. She whistled in unison with the Re-Creation of her are. Only by watching her could one know where the living artist was being heard alone, and when the music came in double measure. The Re-Creation was absolutely identical with the original in every particular.

Further numbers in which Misses Davis and Fagan and Mr. Osborne

performed with themselves impressed the conviction of one's inability to distinguish between Re-Created art and its original.

DIARRHOEA IS

NATURE'S WARNING

"You Need Medicine And It Without Delay

This is the time of the year when colic, flux, diarrhoea and kindred ailments are prevalent. Sufferers are warned to take immediate steps for relief, because the very first pain is nature's red flag of warning. People in this part of the country have learned to depend upon that most efficient remedy sold by leading druggists. "Nash's Diarrhoea Mixture." It has been made and used for years and usually the first dose is all that is needed.

This mixture is compounded from

Perfect baking is the art of producing fine foods. Our master bakers construct a loaf of bread that appeals to every family's sense of food value. Our pastries will make you wonder why meal times don't come closer together. When you write out your order write the name of our bread upon it and insist that you get it.

soothing, healing drugs that have been used by physicians in their practice and will prove beneficial in all cases of cholera morbus, cramp colic, summer complaint as well as dysentery among children and adults. It is best to keep a bottle in the house at all times.

Get the kind put up by Nash Bros. —Nash's Diarrhoea Mixture—the genuine. Sold by Jackson & Read Pharmacy.

CAMERON, TEXAS

HUB DRY GOODS COMPANY

CAMERON, TEXAS

Texas News

Nine Brahma calves, 7 to 8 months old, were sold at El Campo last week for \$250 to \$300 each.

The Texas Cattle Raisers Association will hold their meeting at San Antonio on March 15, 16 and 17.

Work will start within a few weeks on the construction of the highway between Nome and Sour Lake, Texas.

A bond issue for \$200,000 to build a garbage incinerator plant will be submitted to the voters of Dallas at the April election.

More plowing has been done to date in the Luling section than ever before at this time of the year and farmers generally are well up with their work.

The attorney general's department has approved a \$30,000 bond issue of Cherokee road district No. 3, uniting serially and bearing 5 per cent interest.

In an effort to institute a statewide campaign against the ravages of rats, A. E. Gray of the federal department of agriculture has been assigned to direct such a campaign in Texas.

The state banking board has granted charters to two new banks. They are: the State Bank of Harvey, Fort Bend County; capital stock \$100,000; and the State Bank of Tompkins, Tompkins County; capital stock, \$50,000.

Judge W. C. Morrow, a member of the court of criminal appeals, has been elected presiding judge of the court to succeed Judge W. L. Davidson, whose sudden death occurred recently. The presiding judge of the court is elected by the members.

Development of the lignite mines and the construction of a new hotel are being pushed by the Chamber of Commerce recently organized at Smithville. With the mines in full operation it is expected several hundred men will be employed.

Major von Destin of the Galveston district advised Mayor W. E. Lee this week that gauges for the measurement of the flow of the Sabine and Neches rivers would be installed within the next thirty days. The gauges on the Sabine River will be placed at Orange and Deweyville.

The people of Caldwell County have determined to wage unceasing war on rats and rabbits this spring. A rat killing campaign has been inaugurated and rabbit drives are staged almost daily in various communities, in which from 100 to up in the thousands of rabbits are slain.

The report received at the office of G. W. Tilley, state fire marshal, covering the month of January, 1921, show that within the state during the month there was a total of 20 deaths and 41 injuries as result of fire. Most of these fires, said Mr. Tilley, as shown by reports, were caused by negligence or carelessness and might easily have been prevented.

Credits for nine additional towns on account of good fire records during the last three years were announced this week by the state fire insurance commission, each town receiving the maximum of 15 per cent. They are: Post City, loss ratio .019; Carriage Springs, no losses; Carthage, .004; Tranton, no losses; McLean, .005; Conroe, .003; Kingsville, .050; La Grange, .011; Floresville, .046.

Because of the very mild weather DeWitt County turkeys have mistaken the signs of the times for spring and are raising an early crop of blue feather birds. There are hundreds of young turkeys over the county and it is predicted the 1921 crop will be one of the heaviest in history.

A barred Plymouth Rock hen owned by M. A. Lee of Seadrift, Texas, made the best score for January in the Texas national egg laying contest being held at the Texas A. and M. College. The hen produced 96 eggs, while two hens dividing second honors laid 85 eggs each. The second honor hens were of the barred Plymouth and single-comb white Leghorn varieties. Feed cost per dozen eggs, on the average of 520 birds in the contest during January was 21 6-10 cents.

The attorney general's department in an opinion to the commission on insurance and banking, has held that where, by reason of the employment of bank examiners whose term of service limits them to a salary less than the amount of the appropriation, a stipend is thereby created, the commissioner may appoint bank examiners and pay salaries from such stipend, although the appropriation bill makes provision for only 23 examiners provided the number of examiners shall not exceed one for each forty banking corporations subject to examination and the total salaries remain within the total of the appropriation.

Exports through the Galveston district during the month of December were valued at \$73,727,254, according to the report of the United States customs department just issued from the Washington office. These figures compare very favorably with preceding years, and show only a slight loss under the figures for the month of October, 1920. Cotton and wheat are, as usual, the leading products, with rice, lumber and other general cargo running a close race. Cotton exports show that a total of 476,739 bales passed out through the port.

BUCKHOLTS ITEMS

Edited by Miss Audrey Criswell

Buckholts, Texas, May 31.—Stanfield Stach, son of Mr. and Mrs. Frank Stach, is home from Shiner where he spent this year in the convent school at that place.

The Ladies' Aid Society of the Baptist Church gave their play Saturday night. The play was a success in every way. Every seat in the school auditorium was taken but there were not enough to accommodate the large audience. The ladies took in something over ninety dollars. This money will be used to benefit the Baptist church. Music during the evening was furnished by the Baca band.

Mrs. E. J. Kahler was in Waco last week.

Miss Cuma Hamilton is home from South Texas where she taught the past term.

Miss Cora Weathersbee of Rogers spent the week end here with Miss Elsie Wendt. These two young ladies will teach together next year in the Buckholts school.

Mr. John Bryant of the Bryant Station community happened to a very serious and painful accident several days ago. He was hoeing in a field when his hoe struck a rock, causing a piece of rock to strike him in the eye. At first it was thought the accident was very painful but not serious, later it was necessary to take Mr. Bryant to the Sanitarium at Waco, where an operation was performed. Mr. Bryant has lost sight in his eye from this accident. His other eye has been blind for about fifteen years, but his physicians have hope of operating on it and perhaps restoring the sight to him.

Mrs. Mary Culbreth of Rogers was here last week to see her brother and sister, Mr. and Mrs. Hobson.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

MILANO MASONS ATTEND BIG CAMERON MEETING

Eight Milano Masons motored over to Cameron Thursday night of last week and attended a big meeting of the Cameron lodge. It is estimated that fully 200 Masons were present. Those who went from Milano were: W. Boggan, J. N. Suttle, L. M. Peoples, W. O. Newton, L. Newman, S. W. Taylor, E. E. Kennedy and R. E. Thweatt. L. M. People and W. O. Newton furnished their cars. Luncheon was served to the visitors after the lodge meeting at the Commercial Hotel.—Milano Gazette.

RAILROAD PUTS IN NEW PLANT TO PUMP WATER

The I. & G. N. railroad company installed a new boiler and pumping apparatus last Friday at their water tank two miles east of Milano. The old boiler had been giving trouble for a year or more, but under the supervision of Mr. B. N. Ashley it had been coaxed along to do what it could and the tank was always kept full of water. Mr. Ashley has been pumper at this place for 14 years next August. The old boiler and pump were good friends of his, but they had worn themselves out and he now takes a delight in filling up the tank in just a very short period of time.—Milano Gazette.

Piles Cured in 5 to 14 Days

Druggists refund money if FAZO OINTMENT fails to cure hemorrhoids, bleeding or protruding piles. Instantly relieves itching piles, and you can get results long after the first application. Price 50c.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 75c.

MRS. C. J. McLEOD

Mrs. C. J. McLeod is the attractive wife of Representative C. J. McLeod of Michigan, youngest member of the house of representatives.

"Tanlac is sold in Cameron by New Cameron Drug Co., in Rockdale by Baldrige Bros., in Milano by E. C. Smith and in Burlington by the New Drug Store. adv

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SAFETY FIRST REQUIREMENTS

Every first-class scout who qualifies for the merit badge in safety first must pass the following tests:

1. State four or more dangerous conditions in the average home and indicate what steps should be taken to correct these conditions.
2. Produce satisfactory evidence that he is personally responsible for the application of at least two constructive safety first principles in his own home.
3. Name the most serious violation of public safety principles which has come under his observation, and produce satisfactory evidence that he has done all within his power to correct the same.
4. State in writing at least six of the most important regulations covering street safety to meet the conditions of the neighborhood in which he lives.
5. State in writing at least six of the most important regulations covering street safety to meet the conditions of the school he last attended.
6. Submit in writing an outline of his own plan for a school fire drill and explain the method of properly carrying it into effect.
7. State in writing at least six violations of safety first principles which are responsible for accidents in connection with railroads.
8. Stand a satisfactory examination showing a knowledge of the important principles it involves, and satisfactorily demonstrate his ability to assume leadership in case of a fire, panic, or other disaster. (Badge, green cross on white ground.)

In 1919, 2,203 boys passed this test. How many of you adults who read this test could pass it? How many accidents do you suppose could have been prevented in your town last year if the adult population took as intelligent an interest in this kind of thing as the boy scouts do.

SCOUTS LEARN MILK TESTING.

The Pioneer division of the Boy Scouts of America is organized for boys who live in remote rural districts or in small communities where scouting is not yet established. A great number of farm boys are availing themselves of the opportunity offered

Pioneer Scouts Learn Milk Testing.

to practice scouting. The accompanying cut shows a group of pioneer scouts who have learned the proper testing of milk, showing their skill at a state fair.

SCOUTS AS TRAFFIC AIDS.

In Fort Smith, Ark., scouts were recently put on the job of recording their observations as to how well drivers of automobiles were obeying traffic laws and reported that one-third of the motorists observed did not slow down for railway crossings and were otherwise criminally negligent. As a result of this report a more stringent watch was set on traffic and safer conditions enforced.

Another traffic job which won much praise locally was the aid rendered by boy scouts to the police department of Detroit in handling holiday crowds on two of the city's busiest corners. Squads carried long ropes preventing pedestrians from crossing streets during vehicular traffic; when the traffic direction changed a squad leader signaled and the boys hurried to block the other intersections. The police say this work was never so well managed before and greatly minimized the number of accidents and the prevalence of jay walking.

NEW MEMBERS OF BOARD.

The national council of the Boy Scouts of America announces the appointment of the following new members to its executive board: George W. Perkins, the well-known financier and conservationist; Dr. John H. Finley, former president of New York state university and commissioner of education of the state of New York; and Gen. George W. Goethals of Panama canal and other fame.

MISS SUE WHITE

Miss Sue White, research chairman of the National Woman's party, is making the first complete survey of laws affecting the legal status of women in the different states.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. AUGUSTAS THOMAS WRITES PLAY FOR WELLS COMPANY

Great Playwrights Gem Produced at Chautauqua.

The Wells are two of the most finished artists in their line. Their musical and dramatic sketches mark a very high attainment. They are for

tunate enough to be able to present a play written especially for them by Augustus Thomas, one of the living writers of plays.

For several years the Wells have occupied a high place on the Chautauqua platform. Until you have seen and heard them you have no conception of the possibilities of rare entertainment that can be created by so talented a pair.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best, to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy skin in your cheeks, to see your skin clear, brighter and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks. A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

Opportunity Knocks At Every Man's Door

The opportunity to save does not come once in a lifetime. It knocks at your door every day. The question is are you heeding it? Better do it now while you are still in your active years for there will come a time when age, infirmness, financial troubles or sickness will drown out the sound of opportunity's knock.

Don't wait until then. Get busy to-day—come in and get acquainted with us. Let us explain to you how, in a comparatively short time, you can place yourself in the realm of Financial Independence. Our advice is free and you are assured of courteous treatment.

BIG COTTON YIELD THIS YEAR WILL MENACE CREDIT

CUSLEY SAYS AMERICA CARRY-
ING OVER 9,000,000 BALES OF
PREVIOUS CROP

College Station, Texas, Jul. 1.—If the bankers and merchants of Texas to whom the cotton farmers are in debt, fail to realize full collections this fall, they will serve their own interests by prompt and intelligent inquiry into the cotton situation. It is easily possible by intelligent action on the part of the bankers and merchants to realize fair prices for cotton but on the other hand, it is highly probable that without such action the cotton now on hand and the cotton now growing will fall far short of paying debts due. The situation is serious and critical, but it may be easily handled if persons at interest give the problem the same intelligent attention that they give to their other affairs. In my judgement, the action of the bankers and merchants will determine whether we realize the present October quotations of 13c or better, or whether we precipitate a further and more disastrous decline.

We are going out of the cotton year on the 31st of July with 8,500,000 to 9,000,000 bales of cotton from preceding crops. No man can say what we will produce in 1921, but it is certain that the acreage reduction is 15 to 20 per cent and it may be as much as 25 per cent. We had an open winter and a late spring. The use of fertilizers east of the Mississippi River is far below normal. With average weather conditions we may expect a reduced average yield. At the moment the market is a weather market. We may expect declines in quotations as crop conditions improve, but calculating upon average conditions in the growing season we are almost certain to have a production in 1921 fully 25 per cent below the production of 1920. Of course, with the present acreage, perfect conditions during the growing seasons might easily yield 10,000,000 or 11,000,000 bales; the probabilities are that the yield will be considerably less. Taking the 8,500,000 to 9,000,000 bales carry-over and the yield to be expected under average conditions, we will have for sale during the next cotton year probably 17,000,000 to 18,000,000 bales.

The world will have bought of American cotton, by the end of July, approximately 11,000,000 bales. Under the manifestly improving conditions throughout the world, we may expect an increasing consumption next year. We will probably be able to sell 12,000,000 bales, possibly 13,000,000 bales. For this anticipated demand it will be seen that we will have a supply in great excess. As a matter of fact, the excess is not so great as it appears, because it would not be a burdensome surplus at the end of the next year if we had 5,000,000 or 6,000,000 bales. It takes 2,000,000 or 3,000,000 bales to fill the ordinary channels of commerce.

For these reasons I believe that if we market carefully during the next year, we will receive prices well above the cost of production but I am as certain as I was ever certain of anything that if we try to sell in September, October and November 17,000,000 or 18,000,000 bales of cotton, we will witness a decline which will not only further distress the producers, but will bring greater calamity to many bankers and merchants who are looking to the cotton crop for salvation.

We cannot have gradual marketing in the old way of individual selling by the farmer. We can have it only by cooperative selling. The only instrumentality available is the Farm Bureau Cotton Growers' Cooperative Marketing Association which has the endorsement of the State Bankers' Association and of the foremost banking authorities, including officers of the Federal Reserve Bank in Texas. This is not cotton holding movement

It is cotton marketing enterprise and is based upon experiences of many years in other countries and in other parts of the United States. It is new to our people, but the Federal Reserve Banking System was a new one a few years ago. Cooperative marketing is as practicable as cooperative banking. For a man to assert to the contrary is to argue that bankers, merchants and farmers of the south are lacking in intelligence. The farmers are somewhat slow to act, because they are under obligations to their bankers and merchants and they are loath to dispose of their cotton as they would.

If bankers and merchants force their debtor farmers to bring their cotton on the congested market in September, October and November and to suffer the customary waste and graft in cotton marketing, they will do a very foolish thing: If they permit their debtor farmers to pool their cotton to grade and classify it, to concentrate it, to sell it week by week and month by month, as the mills can absorb it, they will save \$10.00 to \$20.00 a bale of preventable waste and graft and they will maintain a steady and probably an advancing market throughout the year.

I have been giving some time to the Farm Bureau's Cotton Marketing Plan and have had close contact with farmers, merchants and bankers, and I have made a careful study of crop conditions. It is my deliberate opinion that the liquidation of cotton debts in the fall and winter of 1921 and 1922 depends absolutely upon the attitude of bankers and merchants towards this undertaking. These bankers and merchants cannot escape their responsibility: The farmer is helpless without their encouragement, because they hold a mortgage on his cotton and he must sell it as they dictate.

We have assurance of a fair food and feed crop. Farmers will need little money next year. They are producing this crop at the lowest possible cost. If they can sell their product intelligently they can pay their debts and next year be free lenders: if they must liquidate in the old way, they cannot pay out. The business men of this state at this moment have it in their power to determine whether Texas in 1922 will be lifted out of its present distress, or will be plunged into deeper distress.

CLARENCE CUSLEY.

MIKE NICHOLS GETS FOUR YEARS IN PEN ON FELONY CHARGE

THORNDALE BURGLARY CASE UNDER TRIAL IN DISTRICT COURT

Mike Nichols of Rogers was given sentence of four years imprisonment in the State penitentiary by a jury in the district court here Wednesday on a felony theft charge in connection with the robbery of the Thorndale Mercantile Company on December 14, 1920.

The case was under trial since Monday in the district court. The jury made its decision in about 30 minutes after the case was ended by the attorneys. Nichols was defended by Lyles & Lyles. District Attorney Jack Lewis prosecuted in the case.

Nichols is to face trial on another charge in connection with the robbery and the case was set for Wednesday but on account of the absence of a witness the case has been delayed. A fine of \$200 was assessed by Judge Watson against Allison, the missing witness.

TAG AND TYSON ESTABLISH PLUMBING BUSINESS HERE

R. A. Tag and T. O. Tyson, plumbers and tin workers of Cameron have

established a business in the building now occupied by Mr. Tyson.

They are experts in their line and will conduct a large business. Both Mr. Tag and Mr. Tyson have been in the business here for a long time. Mr. Tag has just recently been with the Milam County Hardware Company. Mr. Tyson has been conducting a plumbing business.

The Herald welcomes this new firm and bespeaks success.

MILAM COUNTY HARDWARE CO. SECURES NEW PLUMBER

E. E. Gilleland of Hearne, has accepted a position with the Milam County Hardware Company in Cameron and will have charge of the plumbing department of the business.

Mr. Gilleland is an experienced plumber and is formally introduced by the firm in a quarter page ad this week. The company will conduct a large business and Mr. Gilleland will have charge of the plumbing and tin works.

Mrs. H. H. Whitliff left today for her home in Dallas after having spent two weeks visiting her brother, Mr. Charles McDermott and wife.

Grove's Tasteless chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 50c.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

NEWS HAPPENINGS

What Has Transpired This Week the World Over.

AT THE NATIONAL CAPITAL

Short Mentioning of Interesting Happenings From Day to Day Throughout the World.

WASHINGTON NEWS.

Legislation to eliminate unnecessary brokerage transactions to facilitate a wide distribution of information regarding market conditions and strengthen the powers of the federal government in its price investigations is recommended by the Federal Trade Commission in a report on the general industrial situation drawn up at the request of President Harding and made public Sunday at the White House.

The navy appropriation bill, which failed to pass the senate last session, will be reintroduced exactly as it was approved by the house, Chairman Kelley of the house naval subcommittee announced Wednesday. It will carry approximately \$395,000,000, of which \$90,000,000 would be available for continuing work on the 1916 building program.

Any action toward general amnesty for prisoners convicted under wartime espionage law is not contemplated until after a state of peace has been declared, and the government will continue its policy of considering each case on its individual merits, President Harding and Attorney General Daugherty Thursday told delegations urging the release of Eugene V. Debs and others held under such convictions. Delegations also called on Vice President Coolidge and Speaker Gillette at the capitol, where they were told their pleas would be given consideration.

The War-Finance Corporation Friday approved an application for \$2,000,000 to an export financing corporation involving the shipment of 30,000 bales of cotton to England, France, Italy, Portugal, Japan and Germany, according to a treasury announcement.

The grave of Theodore Roosevelt at Oyster Bay, N. Y., was visited Thursday by Rene Viviani, special envoy from France, in company with Ambassador and Madame Jules Jusserand and Stephane Lauzanne, editor of Le Matin.

Peter Augustus Jay of Rhode Island, now minister to Salvador, has been nominated by President Harding to be minister to Rumania.

With party lines fairly closely drawn, the house Friday passed the emergency tariff bill by a vote of 269 to 112, with two recorded as present. Half a dozen republicans voted against the bill and nearly a dozen democrats supported it.

STATE AND DOMESTIC NEWS.

Starting at a point about three miles east of Texarkana, Ark., a tornado Friday swept northeast, doing extensive damage over an area varying from half a mile to nearly two miles in width and 10 miles long, killing six identified persons, three of whom were negroes, and, according to reliable reports, killing five out of six in the family on the Boyce plantation in the Red River bottom.

Secretary Hughes, writing to Samuel Gompers, president of the American Federation of Labor, who asked for a statement of the "facts" regarding Russia, indicated definitely that there is no prospect of resumption of relations with the United States while the soviet political and economic system remains.

Fire Thursday destroy the Ambassador hotel at Santa Barbara, Cal., one of the largest hostleries on the Pacific coast and known to tourists all over the country.

The 178th anniversary of the birth of Thomas Jefferson was observed Wednesday at the University of Virginia, of which he was the founder. Brief exercises also were held at the mountain side grave at Monticello.

Several people were killed, many houses destroyed and the fruit and vegetable crops greatly damaged by a tornado, presumably the same which wrecked havoc along the northeastern border of Texas and Arkansas, near Texarkana, which struck O'Farrell, a thickly settled farming community seven miles west of Atlanta Friday.

W. A. Bowen, publisher of the Arlington Journal and the Farmers' Fire-side Bulletin and a pioneer in Texas journalism, died Friday at his home at Arlington, near Dallas, Texas. Before coming to Texas he was connected with Chicago, Washington and New York papers. Colonel Bowen was 66 years old.

Ellington Field, Houston, Texas, is expected to have 400 cadets by June 1, who will take the advanced flying. Only cadets who have passed through the ground and preparatory schools are sent there. Bombing instruction in De Havilland planes and perhaps Handley-Page will be given.

FOREIGN NEWS

Large quantities of arms and munitions have been discovered by police officials in raids on the homes of Croats involved in the recent uprising.

No Other Phonograph can do it!

No other phonograph even dares the test which the New Edison underwent last Tuesday, before a large audience at the Yoe High School Auditorium.

The fact is something for you to think about.

For,—the test of comparison is the one phonograph test which means anything. It is the one way in which a phonograph can prove its realism. At the same time, it is the most drastic of phonograph tests. To sustain it, requires absolutely perfect realism—no less.

Last Tuesday, the New Edison stood by Helen Davis' side in Yoe High School Auditorium. If you were there, you heard the

living voice and the RE-CREATED voice brought into direct comparison. You know that there was no difference between the two voices. You heard Sibyl Sanderson Fagan make a similar test with her whistling selections. You know that there was no difference between the original performance and its RE-CREATION.

By this wonderful performance, the New Edison has placed itself apart from all other phonographs and talking machines. It alone dared the drastic test. It alone has proved, concretely and conclusively, that it gives you the living performances of great artists.

The New Edison

"THE PHONOGRAPH WITH A SOUL"

Any Official Laboratory Model you buy in our store will positively sustain the test made at Yoe High School Auditorium. We will give you our guarantee to that effect.

Come in and hear this instrument in

some further tests of its realism. Learn that you can have an Official Laboratory Model of your own, on a very small cash outlay. We will make a gentleman's agreement with any music lover.

New Cameron Drug Company

CAMERON, TEXAS

Do you want a Certificate of Authenticity?

Every one who selects his Official Laboratory Model now, receives one of these handsomely engraved documents, which certifies over the signatures of Helen Davis and Sibyl Sanderson Fagan, that such instrument is the equal, in every respect, of the instrument used in their test. The artists have personally inspected all the Official Laboratory Models in our store.

HONOR SHOULD BE AMERICA'S

Washington Man Really Was the First to Demonstrate Possibilities of Wireless Telegraphy.

A dentist living in Washington, D. C., invented, patented and demonstrated wireless telegraphy before Marconi was born. Had it not been for the attitude of big newspapers and the stubbornness and lack of vision of congress, this country today would be enjoying the honor, distinction and credit of presenting wireless telegraphy to the world. The name of this comparatively unknown inventive genius is Mahlon Loomis. Back in the sixties and seventies he eked out a modest living by plugging molars and making "store" teeth for the politicians and social leaders of Washington. Doctor Loomis called his discovery "aerial telegraphy." His first public demonstration was made in 1860 from the two peaks of the Blue Ridge mountains in Virginia, some 18 miles apart. From each peak an ordinary kite was elevated, connected with an insulated copper wire attached at the lower end to a telegraphing apparatus. The operators of each party were provided with telescopes, with which they could sight from one station to the other and read the signals. When all was in readiness a message was sent by the doctor along the wire of his kite, and was received at the station on the other mountain top just as though the two kites had been connected with a wire in the ordinary way. In this manner communications were kept up until the fact was thoroughly demonstrated that telegraphing could be done as readily without as with connecting wires.

DOG RELAYS CALL OF 'PHONE

Well-Trained Animal Said Never to Make a Mistake in Notifying His Mistress.

Not far from Boston lives a dog by the name of Timbuctoo, a dog which has never been trained but which of its own accord acquired a "trick" which besides being clever is decidedly helpful. His home is on a farm, which is served by a seven-party telephone line. The call at Timbuctoo's house is five bells, or as the toll operator would say, "Ring five." Wherever his mistress is when the telephone rings five times Timbuctoo will go to her and give five short, sharp barks. He has never been known to make a mistake either by barking more or less than five barks, or by calling his mistress when the bell rings some other call.

In order to "show off Timbuctoo," his mistress asks a neighbor to call her in a few minutes, then she goes somewhere out of range of the telephone, and Timbuctoo never fails to give proof of his trustworthy summoning.

Cadets' Great Ride.

Two hundred and fifty senior cadets of Victoria, B. C., have recently completed a 1,400-mile ride on bicycles, bearing dispatches from the state commandant to the minister for defense. The small riders averaged more than 14 miles an hour, and they completed their task 6 hours and 23 minutes ahead of schedule. This fine performance roused public interest in the new system of cadet training, which has taken the place of the monotonous drill-yard evolutions. Australia is training its youngest soldiers in camaraderie, self-sacrifice, alertness and a love of athletics. The story of the 1,400-mile ride against unexpected obstacles has set a standard which will not be easily forgotten by the Australian boy. While the dispatch ride has done much to direct attention to a happier system of training, it has also served to awaken the interest of fathers and elder brothers.

Eggs From the Orient.

A train of 25 cars, loaded entirely with Japanese and Chinese eggs, left Vancouver, B. C., the other day, bound for New York. The train was made up of nine carloads sent over from Seattle to be attached to sixteen carloads of eggs from the steamer Empress of Russia. The eggs from Seattle were delivered by Japanese liners. The eggs, with the exception of 1,500 cases for London, England, and 1,000 cases for Montreal, were all consigned to New York. The shipment to the latter point consisted of approximately 17,500 cases of 50 and 36 dozen each, or about 6,500,000, more than an egg for breakfast for every man, woman and child in New York city.

'Economy Carried to Excess.

A short time ago, on seeing a man who was sitting beside me in a cafeteria "get away" with a large hamburger sandwich in three bites, all "mind your own business" policies were cast aside and I remarked, "You must intend to catch an out-of-town train; you are in such a hurry." He came back with, "Oh, no. You see every one's stomach requires a certain amount of meat and it is known that by gulping it it takes longer to digest. As meat is high I eat this way and by so doing I have to eat meat but every third day."—Exchange.

Past the Academic Stage.
"Should women smoke?" asked the man who likes to theorize.
"That isn't the question any longer," said Mr. Gadspar.
"No?"

"What we've got to decide now is whether or not the additional fire risk caused by women smokers will justify the insurance companies in raising their rates."—Birmingham Age-Herald

ALL LATEST NEWS

News That Is News, When It Is News, for All.

STATE, NATIONAL, FOREIGN

Openings the World Over of Important Events Condensed to Good Reading.

WASHINGTON NEWS.

The number of persons employed in the United States continued to decrease during February, the department of labor's employment service announced this week. The decrease for last month, as compared with January, was estimated at 1 per cent.

President Harding has ascertained that under provisions of the trading with the enemy act, still in effect, he has power to declare an embargo against importations of wool, as was strongly urged by members of congress from the wool producing states this week, but he is reluctant to employ the power, which savors of a war measure, if he can avoid it.

STATE AND DOMESTIC NEWS.

The interstate commerce commission has scheduled for argument before the matter of advance of express rates in Texas on April 6.

Governor Neff has signed the bills authorizing Polytechnic Heights school district to issue bonds, creating Yorktown Independent School District and creating La Grange Independent School District, Fayette County, Tex.

D. R. Crissinger of Marion, Ohio, took oath Thursday as comptroller of the currency and as such automatically became a member of the federal reserve board.

Clara Smith Hamon Thursday at Ardmore, Oklahoma, was acquitted of a charge of having murdered Jake L. Hamon, republican national committeeman from Oklahoma and millionaire railroad and oil promoter.

By a vote of 21,482 to 207 union workers in Chicago, Ill., packing plants Friday favored a strike if they are "unable to induce the packers to maintain the eight-hour day."

General John J. Pershing, speaking before a crowd which packed Madison Square Garden, New York, Friday, at one of the greatest patriotic demonstrations since the signing of the armistice, bitterly denounced persons of foreign birth who seek the freedom of this country to spread "political and warlike propaganda" to weaken ties of friendship between the United States and her allies in the late war. The meeting was held under the auspices of the American Legion and other patriotic societies as a protest against a recent mass meeting arranged to voice objection to the presence of French colonial troops in occupied Germany, described as the "horror on the Rhine."

Practically the whole state has been drenched by rains during the past week, according to reports. This rain has been especially heavy in South and Southeast Texas.

A LIBERTY BOY PUTS UP 100 JARS OF BERRIES

(By the Liberty Correspondent.)
We notice quite a lot of people are canning great quantities of berries. I think we can boost of a good record for a berry canner. Frank Hartley, the 13-year old boy of Mr. Jim Hartley, who recently lost his mother, has canned 100 jars and hasn't lost a jar. He says he will keep on canning as long as the berries last. Frank has also learned to cook and keep house for his father, brothers and sisters, and seems to enjoy his new occupation.—Milano Gazette.

MILANO MASONS ATTEND BIG CAMERON MEETING

Eight Milano Masons motored over to Cameron Thursday night of last week and attended a big meeting of the Cameron lodge. It is estimated that fully 200 Masons were present. Those who went from Milano were: W. Boggan, J. N. Suttle, L. M. Peebles, W. O. Newton, L. Newman, S. W. Taylor, E. E. Kennedy and R. E. Thweatt. L. M. Peeple and W. O. Newton furnished their cars. Luncheon was served to the visitors after the lodge meeting at the Commercial Hotel.—Milano Gazette.

Rub-My-Tism is a great pain killer. Relieves pain and soreness, Rheumatism, Neuralgia, Sprains, &c. 2tf.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

1921 CACTUS DEDICATED

TO MAJOR LITT REFIELD
Austin, Texas, May 25.—The Cactus, the annual University of Texas publication, has been received and is regarded as one of the most artistic and complete ever issued by the students of the institution. It is dedicated to the University's late benefactor, Maj. George W. Littlefield, who died last December. It is

replete with pictures, stories and incidents of the college and campus. Wendell Mayes of Austin was editor in chief and has been congratulated on the book.

The six student beauties are Misses Helen Cummings, Hearne, Eleanor Covert, Austin; Marjorie Blakeney, Cleburne; Margaret Kelley, Dallas; Marguerite Kerr, Fort Worth and

Mildred Chambers, Cameron.

Tinting and coloring has been used more extensively than heretofore and its successful introduction is one of the features of the book. Sectional pages show colored borders, surrounded by the six flags which flew over Texas, banked behind a great sweep of horns and a head of a long-horn steer.

NOTICE TO THE PUBLIC

WE are fortunate in securing the services of Mr. E. E. Gilleland, recently of Navasota, Texas, who will have charge of our plumbing department. Having been engaged exclusively in this line of work for the last twelve years, he is thoroughly qualified to do the class of work that you desire. We shall endeavor to give prompt and efficient service in this department and will be pleased to submit estimates on any plumbing work you have, and will take pleasure in helping you plan your plumbing, giving you the benefit in every way of the experience of the experts we employ in this department, to place at your disposal the best service possible on your plumbing orders.

GOOD YEAR

NEWS FROM SHARP COMMUNITY

Edited by Mrs. W. H. Lyon

May 30th.—It is becoming very dry now, and farmers, while not needing rain badly now, are wishing it would not wait too long about it. Corn and cotton are looking well, also gardens.

Mrs. Charlie Hook has been confined to her room for two weeks with malaria fever. We are glad to report her able to be up now.

The Duncan School closed last Friday evening after a successful term taught by Misses Bolliver Carlyle and Sarah Montague, who left for their respective homes immediately.

Miss Lavinia Lyle left Sunday afternoon for Cameron where she will spend a few days, and from there she goes to Dallas to join her mother who has been visiting her sister for past two weeks. They will return home in a couple of weeks.

Miss Swanzy of Davilla was a guest in the Lyle home for the past several days.

Oscar Patilla, wife and baby, accompanied by Henry Pattilla came over from Buckholts to see relatives Sunday.

Mrs. Murff has been the guest of her sister, Mrs. Massey for the past two weeks.

Mr. and Mrs. Lankford and daughter, Miss Alma, visited the Will Massey home Sunday afternoon from Cameron.

Miss Barmore of Maysfield, but who is teaching at Riverside, spent the last week end as guest of Miss Erin Massey.

Henry Graves and family shopped in Cameron last.

Miss Mattie Brinkley left for her home in Leon county the latter part of the week. Her friends will miss her pleasant company here, since she has been a visitor to her sister on frequent week ends from her school at Rosebud.

Mr. Tom Bartlett of Tracy was taken to the Cameron Hospital last week, where he was operated for stones in the kidneys. Last reports from there show that he is doing splendidly, and so far having no unfavorable symptoms. His friends hope that he may soon be up and able to return home.

Mr. and Mrs. Hertenberger and sons, Louis and Raymond, left by auto Sunday for Lampasas to visit her brother, Mr. Rudolf Stach.

Mr. Fritz Wolle has gone to La

CASES IN JUSTICE COURT

Seven separate cases of failure to dip cattle came up in Justice Court here at Milano Thursday of last week. Three cases were from the Sand Grove community and each of these paid a fine of \$37. One case from Maysfield was appealed to the county court. Two other cases were continued and one case was dismissed. Several cases of other violations of the law came up, one being two negro women of near Gause whose case was compromised by one fine for disturbance of the peace. This monthly session of the court brought in a large number of people to town who were interested in the proceedings.—Milano Gazette.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Was
Very
Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE

CARDUI

The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.

A MASTER SALES EVENT

W. KLAWANSKY

THE PRICE IS THE THING

JUNE CLEARANCE SALE

When we say this a Master Sales Event we mean just that—A Sales Event with few parallels in modern merchandising because based on price cutting that means a moving out of highly seasonal merchandise in the very height of the season's demands. Seldom has such an opportunity been offered—such low prices been quoted on Ready-to-Wear and Shoes and Piece Goods you will need this Summer. This sale in its amazing and opportune features is in many respects without equal. It means below cost prices—A cut to the Red Rock—the apex of opportunity in value giving.

Strictly speaking, summer is just beginning in June, but in the matter of clothes for the warm weather season, the wise woman likes to have settled the question. No doubt there are still many requirements which you have postponed buying. This store suggests that you take advantage of the wide range in stock and the many timely June values we now offer in this June Sale. Many, many good values, too many to mention but here we offer you a few that you may arrive at a knowledge of the meaning to you. Read the prices and compare the goods and you will see for yourself.
